The following is an examiner's statement of reasons for allowance: All claims (1-4) are allowed over the prior art of record because none of the references show the specific combination of a hinge comprising a barrel having a first flange, a first spiral slot, two stop slots, two second spiral slots, and their respective locations inside the barrel; a pintle having a head, a second flange, a protrusion, two ridges, and their interconnections with the features of the barrel; and the resilient member and the fastener.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

PTO-892: Hayashi, Kobayashi, Minami et al., ... and Sun et al. show a hinge with a barrel, a shaft, resilient member etc., but do not show the specific features of the barrel and the pintle and their respective interconnections as claimed in the present application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Chiang whose telephone number is 571-272-7483. The examiner can normally be reached on Mon.-Fri. from 8:00 to 6:30.
